Bring your own Lawn Chairs,
Blankets, and Bug Spray!

Fire Department

Welcome back to summer! As we progress to a more usual summer fun schedule, the Fire Department reminds you to keep your fire pits/camp fires supervised and under control. Be aware there is a Village Ordinance in regard to fire works, and please be respectful to those pets you might be causing stress, with the usage of fire works.

Watch for us at Movie in the Park later this year. We hope to see you at our Open House Sunday September 17, 2023 from 11am to 2pm. If you are interested in joining the Fire Department, please stop in on a Monday night to chat, or go to the Village Hall and fill out an application.

Wrightstown Police Department

Fun In The Parks

The Village of Wrightstown has many wonderful parks that offer a variety of amenities. While officers are out on patrol, it is nice to see them in use and people having fun. To keep our parks safe and enjoyable for our community, the Village does have certain ordinances in place.

- Parks are closed from 10pm – 6am
- Fireworks, and fires prohibited (Charcoal burners may be used in picnic area)
- No throwing of stones or missiles in or into the park, parkways, or waterways.
- No driving on sidewalks or grassy portions of the park.
- No interfering with permit holders
- Glass beverage containers prohibited
- Do not disturb, chase, or throw objects at animals or birds
- Dogs must be on a leash no longer than 7 feet
- Metal detectors prohibited without a permit.
- No swimming within 100 feet of the boat launch
- Vehicles with boat/kayak trailers parked in Mueller Park/Boat Launch must have a Brown County yearly boat permit (Can be obtained at Village Hall) or a \$6.00 Daily Boat permit from the boat launch. That permit must be properly filled out, fee paid, and receipt placed on drivers side dashboard visible from the windshield before you launch.
- No overnight docking of boats

This is not an all-inclusive list. The full parks ordinance can be found at <https://wrightstown.us/code-book/> under chapter 135.

Annual Water Main Flushing Notice

Water main flushing will occur Tuesday, August 8th - Thursday, August 10th. Flushing removes natural minerals such as iron and calcium, which are harmless, but may discolor water. Check your water for clarity before washing clothes. If water looks discolored, flush through with cold tap water only.

Lawn/Weed Control

Our ordinance – Chapter 130-3 states that weeds/grass/vegetation over 12” on a vacant lot and 8” on a developed lot constitutes a public nuisance. If it is determined that the height of weeds, grasses or other vegetation exceeds the limits, the DPW Staff will cut the noxious weeds, grasses or vegetation and charge the expenses to the property owner. We would like to thank the responsible property owners in the Village of Wrightstown for helping us make the community so beautiful.

Yard Waste

Branches and brush are chipped curbside on recycling Thursdays. Grass clippings, leaves, and garden waste are accepted at the compost site located on Van Dyke Street. Please do not place your yard waste in your garbage or recycling carts. Banned from WI landfills since 1993, placing yard waste in your refuse container violates WI State Statutes Chapter 287 and Wrightstown Municipal Code Chapter 165. Responsible dumping and efforts of tidiness are appreciated to ensure longevity of the site and to help with maintenance costs associated with the compost site. Contractors working in the Village are not allowed to dump at the site. The solid waste container that is located at the site is for disposal of garbage bags used to transport leaves and grass clippings. Please empty all bags as it is unacceptable to leave grass clippings or leaves in bags.

Deduct Meters

Meters are available to customers in permanent or fixed installation as well as portable or temporary. These meters measure water that is used outside the home where sewer treatment of the water is not needed. This measured water amount is deducted from the sewer charge. There is an installation fee for permanent meters as well as a quarterly charge. The portable meters accrue charges by the month for the time it is rented. These meters are available upon request at the Utilities Department. Please contact the office at 920-532-0434 to pick up a portable meter or requirements for a permanent one.

Summer Recycling

- It's BBQ and camping season! How do you dispose of propane and butane cylinders? If still in usable condition, many cylinders can be exchanged and refilled. Check with your local suppliers. If the cylinders are completely spent it is allowed to be placed in your garbage or brought to a scrap metal yard. Please do NOT recycle in your curbside cart. If there are chemicals in them, they can be brought to Brown and/or Outagamie Counties Hazardous Waste Centers.
- The sun is out, temperatures rise and you refresh with a beverage! Do your best to recycle your plastic, aluminum and glass containers while enjoying summer activities like: picnics, parties, swimming at the beach, sporting events, festivals and other outdoor activities.
- Reminder that cutlery, straws, plates, napkins, styrofoam containers/coolers and paper toweling are NOT recyclable items; please dispose of these items in the trash.
- When gardening, unfortunately plastic plant containers are NOT an accepted plastic in our recycling program. Check with local garden retailers if they could reuse, get creative and find other uses for the pots or throw in trash. Reminder that mulch and potting soil bags don't belong in your recycling bin.
- Mr. Handyman upgraded his power tools to start that big deck building project and he's not sure how to dispose of the old batteries.....Residents can bring their "junk" household batteries to Public Works for proper disposal during normal business hours. (Wastewater Treatment Plant/Administrative Building – 101 Washington St.) Please do NOT dispose of batteries with your recycling. Batteries and electronics are a fire hazard and should never go in recycling carts.
- It's grass mowing time. So don't let those grass clippings end up in the landfill! The EPA estimates that yard waste accounts for 18% of our landfills. Yard waste is *not* acceptable in trash or recycling carts. Wrightstown offers a convenient drop off location for your grass clippings and yard waste. The compost site is located at 409 Van Dyke St.

Thank you for doing your part and recycling right!

Please keep grass clippings and leaves out of the streets!
